Global Risk Appetite Cycle: Macro-prudential Tools

10 Though there is talk about the need for a more macro-prudential approach to regulatory policy, macro-prudential tools are not being used to their full potential. — *Avinash Persaud*

Shaming the Shameless

12 The Hindu *rashtra* is a revivalist project of a bunch of Brahmin bigots, foolishly dreaming of establishing their supremacy. — *Anand Teltumbde*

India and the Shadow of the Trans-Pacific Partnership

14 Remaining outside the Trans-Pacific Partnership will create trade diversion for India but its membership could entail heavy costs without commensurate gains. — *Abhijit Das*

Nepal's Transit through India: An Assessment

18 Nepal must aim to amend its transit treaties with India in line with internationally recognised practices. — *Nisha Taneja, Samridhi Bimal & Isha Dayal*

Will the JAM Trinity Dismantle the PDS?

21 The JAM (Jan Dhan Yojana, Aadhaar and mobile numbers) technologies have great potential for fighting leakage from the Public Distribution System. — *Silvia Masiero*

Myanmar's Elections: Skewed Constitution and Its Conundrums

24 Will the military that has ruled Myanmar for decades let power slip out of its hands as the country prepares for elections? — *Mohinder Pal Singh*

My Market Value

26 Is a doctor just a product like Coca Cola which needs to be marketed and sold, his market value enhanced by the profit for the hospital that employs him? — *Shoaib Mohammad*

The World Bank's Latest 'Assault' on Global Poverty

35 Demonstrating the "reasonableness" in the World Bank's choice of poverty norms and measurement protocols is very difficult indeed. — *S Subramanian*

Size and Structure of India's Private Corporate Sector

41 An attempt to shed fresh light on the statistical dispute generated by the new National Accounts Statistics by comparing the official sources on the private corporate sector and an alternative estimate. — *R Nagaraj*

Gender-based Crime and Gender Inequality in India

48 A study of the regional variation in gender inequality index and crimes against women shows that these rates have grown while general crime rates have decreased over the years. — *Paribhasha Sharma*

Commission Agent System: Punjab

56 Punjab's farmers have become increasingly dependent on commission agents for a steady flow of cash for farming and daily needs vital for their survival. — *Sukhpal Singh, Shruti Bhogal*

NISCAIR Policy on Plagiarism

The system of formal communication in science through publication in primary journals is based on originality and quality of information being the only criteria for publication. However, there have been tendencies to misuse the system and vitiate the process of science communication for personal benefits. One of the ills afflicting science communication is plagiarism. Attempts at plagiarism may range from verbatim, copying of extensive material of other authors, misappropriating results/data of others with minor changes in language/presentation without giving credit to original source, to publish essentially the same information more than once.

As the premier publisher in India of primary scientific journals in various disciplines of science and technology, NISCAIR strongly reiterates its policy of discouraging plagiarism of all kinds. All efforts are made detect and frustrate attempts at plagiarism through editorial screening and rigorous peer review in respect of communications received for publication in NISCAIR publications. Cooperation of the scientific community is sought in our efforts to frustrate all attempts at plagiarism.

It is mandatory on the part of the corresponding author to furnish the following certificate at the time of submission of the manuscript for publication:

[This is to certify that the reported work in the article entitle, "(give full title with all the authors name)" submitted for publication in the journal, the..... is an original one and has not been submitted for publication elsewhere. I/we further certify that proper citation to the previously reported work have been given and no data/table/figures have been quoted verbatim from other publications without giving due acknowledgement and without the permission of the author(s). The consent of all the authors of this article has been obtained for submitting the article to the journal, ".....".

Signatures and names of all the authors]

In case any attempt to plagiarize is brought to our attention accompanied with convincing evidence, following steps would be taken:

- After consulting the respective Editorial Board Members, authors guilty of plagiarism will be debarred from publishing their papers in NISCAIR journals
- Heads of the departments/institutes of the offending authors will be intimated of such incidences of plagiarism.
- Such incidents of plagiarism will be publicized through the concerned NISCAIR journals in consultation with the respective Editorial Board Members.
