Introduction

Teacher's skills and competencies are important factors in the effectiveness of teaching and therefore pupil learning. The National Curriculum Framework (NCF, 2005) while suggesting improvement of quality of teacher education programme states that teacher education must become more sensitive to the emerging demands from the school system. Teacher preparation is an activity that requires multidisciplinary perspectives and knowledge formation of dispositions and values, and development of practice under the best norms (NEP 2020). The curricula of teacher education institutions need to be designed to provide for the acquisition of these skills by student teachers. For this it must prepare the teacher for the role of being an encouraging, supportive and humane facilitator in teaching-learning situations. This will enable learners to discover their talents, realize their physical and intellectual potentialities to the fullest and to develop character, desirable social and human values to function as responsible citizens. The TEIs need to be restructured and there is a need of raise its standards and restore integrity, credibility, efficacy and high quality of teacher education system (NEP 2020). The National Curriculum Framework for Teacher Education developed by NCTE (2009) states that "A teacher functions within the broad framework of the school education system - as guide
