Dated: 9th October, 2019

Dear Sir,

You will be glad to know that RIE, Bhopal is organizing a National Conference on the topic "**Gandhian thoughts for School Curriculum**" to commemorate the 150th Birth Anniversary of Mahatma Gandhi, the Father of the Nation. The Conference has been scheduled from January 30 to 31, 2020. Keeping in view the relevance of the theme for the students, we have planned a special session for the participation of the students of RIE on 31 January 2020.

I request you to circulate the brochure among the students and motivate them to submit papers on the themes of their interest at this level.

With regards,

Yours sincerely,

(N. Pradhan)

आलेख स्वीकृति की सूचना 30 नवम्बर, 2019

राष्ट्रीय संगोष्ठी 30-31 जनवरी, 2020

About the Conference

Nation is celebrating this year 150th Birth Anniversary of Mahatma Gandhi, Father of the Nation, at National and International levels to propagate his message and ideals. This is not just an occasion to celebrate but also to reflect and ponder on his thoughts and ideas in different fields and spheres of life. Our social responsibility as citizens of India also demands from us to help fulfill Gandhiji's vision of India on his 150th birth anniversary.

Education is the bedrock of a civil society and school education its nucleus. Gandhiji considered education as a strong force for individual, social and national development. In fact, Gandhiji's approach to education is quite sound and practical. He is considered to be a revolutionary educational thinker of modern India. Through his educational scheme, he wanted to bring about a social revolution in our country, thereby leading to creation of a new social order. He is regarded as a practical educational thinker and experimenter on education to the core. The method of education which he promoted was activity centered, craft centered, life centered and society centered. His educational thinking was rightly considered as the dynamic side of his way of life and the educational system propagated by him is dynamic side of his educational thoughts. Gandhian literature on education is available in abundance. There is lot more to be discussed and reflected upon for the benefit of all of us.

With this intension the present conference is organized. The primary goal of this conference is to reflect upon and examine some of the key aspects of school education that Gandhiji conceptualized and implemented with the help of his associates and also those concepts that he and his associates visualized for the future and ponder upon their suitability, utility and viability in today's context.

This conference will also facilitate us to discuss and exchange views and thoughts on school education and its curriculum in the Gandhian context of society and life as a whole. Gandhiji's views on peace and harmony in society and community through education at national and international level will also find an important place for discussion in the present conference as he believed in 'Vasudhev Kutumbkam'.

It is expected that proceedings of the conference will come out with suggestions and recommendations on implications of Gandhian thoughts in school curriculum. It will be, in its true sense and spirit, a commemoration on 150th Birth Anniversary of Mahatma Gandhi, The father of the Nation.
