

CEMCA

In response to the needs expressed by the Commonwealth countries of the Asian region for a more effective utilization of educational media resources for Distance Education, the Commonwealth of Learning (COL) established Commonwealth Educational Media Centre for Asia (CEMCA) in the year 1994. CEMCA, under a host country agreement signed between COL and Government of India (GoI) in 1998, has its headquarter in New Delhi. The GoI notified CEMCA as a diplomatic mission under section 3 of the United Nations (privileges and immunities) Act, 1947 (46 of 1947) vide The Gazette of India, Extraordinary, Part II, Section 3, Sub-section (ii) dated 10 February 2000.

ABOUT THE CONFERENCE

'The more complex the world becomes, the more creative we need to be to meet its challenges'

-Sir Ken Robinson in the book 'Out of Our Minds'

The organized system of learning is undergoing tremendous change with the changing family structure, advancement in technology and globalisation. Schools are becoming places of competition concentrating on academic performance more than learning outcomes across the globe. Competency based learning is taking back seat in the predominance of content learning in the name of excellence in education to function in the competitive world. Hence "Skills required for 21st century" has become an integral part of educational thinking and planning. In this backdrop there is a need to respond to the change and uphold resilience for effective functioning in the system. Educational functionaries are expected to understand the transformation in the education system and reorient themselves to address the changing paradigm of learning. In order to do so there is a need to deliberate, discuss and evolve ways and means of transforming the practices in schools that serve humanity. This process of mutual sharing is inbuilt besides prudent opportunity for individual participants to update and develop professional capacity to facilitate progress in the system. To equip teacher educators and teachers with necessary skills and knowledge and to engage themselves in the present context with confidence, an international conference has been planned.

OBJECTIVES OF THE CONFERENCE

- Sharing academic experiences including researches, best-practices and innovations
- Suggest various areas for innovative researches and practices
- Bring out recommendations, theme wise to address national and institutional policies for education in the twenty first century
- Development of collaboration, networking and partnership

THEMES

Abstract (250-300 words - reflecting objectives, methodology, major findings, results and discussion).

The full original paper should be organized in the following format for research based studies.

Keywords, Introduction, Aim/objectives, Hypothesis (if any), Methodology / Procedures, Results and Discussion, Conclusion and Implications of the study and Acknowledgement (if any)

* Case studies, publications, practices can also be submitted in the form of articles.

References (APA 6th edition) format to be followed:

Danish, J. A. & Enyedy, N. (2007). Negotiated representational mediators: How young children decide what to include in their science representations. *Science Education*, 91(1), 1-35.

The papers may be sent by email to
ice21c2020@gmail.com

POSTERS AND EXHIBITION

Posters are invited on all the themes. Poster presentation will include discussion. Exhibition: Stakeholders are invited to share resources, concepts and ideas that make their uniqueness of their institutes.

ABOUT US

REGIONAL INSTITUTE OF EDUCATION, BBSR

Regional Institute of Education (RIE), Bhubaneswar is one of the constituent units of National Council of Educational Research and Training (NCERT), New Delhi, which is an apex body in the domain of school education under MHRD, Government of India. RIE, Bhubaneswar acts as a Regional Resource Centre of NCERT for the Eastern Region of the country (Bihar, Odisha, Jharkhand, West Bengal, Andaman and Nicobar Islands and North Eastern states) and serves as an Advanced Centre for conducting research and professional development programmes in school education and teacher education. The academic programmes are affiliated to Utkal University to offer pre-service programmes at undergraduate, postgraduate and doctoral level to prepare teachers and teacher educators. The institute also organizes in-service programmes for teachers, teacher educators and administrators concerned with school and teacher education.

UNICEF

UNICEF supports governments and civil society in approximately 155 countries to implement the UN Convention on the Rights of the Child and other international standards. UNICEF's rule of law work includes support to child rights legislative reform; birth registration; justice for children; disarmament, demobilization and reintegration of children associated with armed forces and armed groups; monitoring and reporting of grave violations against children as per Security Council resolution 1612; and protection against abuse, exploitation and violence including trafficking and sexual and gender-based violence. UNICEF also provides technical assistance to governments to support the inclusion of child rights provisions in constitutions, the development of children's codes and the review of relevant national laws to bring them in line with international standards.
