MENTOR MENTEE ACTIVITIES

The Institute has well defined and properly placed mentoring system for holistic development of all the students suiting to their needs and requirements in the domains of knowledge, skill development and personality development. There are three kinds of mentoring in the institute for catering to the needs of different curricular activities.

- Class-wise mentors continuously facilitate students for their learning
- Programme wise coordinators are selected at the beginning of session for overall mentoring.
- The skill classes (Sem. V in B.Sc.B.Ed. and B.A.B.Ed.; I Sem. B.Ed.) are mentored by institute faculty and continuous feedback is provided for core teaching competencies i.e. introduction, questioning, explaining with illustration, appreciation and encouragement, stimulus variation, use of learning resources, managing diversity, contextualization critical thinking and reflection, assessing learner and feedback et.
- Mentors supervise each student group during school attachment and filed engagement programmes i.e. Multicultural School Exposure, School Internship and working with community programmes.
- In M.Ed. Programme, the mentors are continuously involved in facilitating the dissertation activities i.e. development of research proposal, tool development and preparation of dissertation report.

Webinar on
POWER AND PROMISES OF MENTORING IN TEACHER EDUCATION
PROGRAMME

4th June 2021

The one-day webinar was organised on 4th June 2021 in the Regional Institute of Education, Bhubaneswar. It was coordinated by the Department of Education by Dr Gowramma I P, Head of the Department and Dr Elizabeth Gangmei, Associate Professor. Prof P C Agarwal Principal was the patron while Prof Sandhya Sahoo Dean of Instructions and Prof. B N Panda, Dean of Research were the conveners. The webinar was attended by faculty members, teachers from DM School and students of different programmes of the institute.

Prof I.P. Gowramma welcomed the speakers and participants. She presented the context of the webinar. The National Education Policy (NEP) 2020 envisages for establishment of a National Mission for Mentoring (NMM) for quality improvement of teacher preparation in the country.

Prof. P.C. Agarwal, Principal highlighted the recommendations of NEP 2020 i.e. to develop a system of mentorship 'National Mission for Mentoring (NMM)' by distinguished and retired faculty – including those with the ability to teach in Indian languages – who would be willing to

provide short and long-term mentoring/professional support to university/college teachers. NEP 2020 (Paragraph 15.11); “A National Mission for Mentoring shall be established, with a large pool of outstanding senior/retired faculty – including those with the ability to teach in Indian languages – who would be willing to provide short and long-term mentoring/professional support to university/college teachers” .He said that Mentoring in this sense becomes not just a way of supporting individual teachers, but also a device to help build strong professional cultures of teaching in our schools, dedicated to improving teaching, learning, and caring. Mentoring must be explicitly connected to other reform components in transforming the teaching profession and address the needs of all teachers new to the district or school, not just beginning teachers. It must be linked to the redesign of initial teacher education and ongoing school improvement.

The deliberation was a step towards preparing ourselves not just as mentors but also with a bigger responsibility of creating a swarm of mentors for teacher education and school education. By doing so we are looking at a vital window of opportunity to recreate the profession. The next decades of 21st century will be a defining era for the teaching profession for which we have to put a strong base now. Visualising the fact that TE gets more enriched with mentoring inbuilt to its functioning a webinar was organised to create a forum to discuss and deliberate on the possibilities of implementing the idea in the institute.

Prof Ramesh Babu, Dean Research, RIE, NCERT Bhopal on in his address stressed on how the role of teacher transforms once they become mentors. It is important to understand that mentorship is being realized with much importance quite late in the arena in the teacher education, though mentoring has always been a part of teacher training program.

What is mentoring? In discussing mentoring, he spoke of the different roles that a mentor takes up.

He further, focussed on the objective of mentoring:

- The Normative Value of Education: The making of the human teacher, the process of making is the most important one. The mentoring is the sum total of all the processes that have often been mentioned as substitute of mentoring. The mentoring would help in attitudinal mouldings of the individuals into the desired quality teachers in addition to being well equipped teachers with sound base of content and pedagogy.
- Education is majorly the process of learning, how to learn in the dynamic and diverse situation that is created in the process of teacher training/ making. The teachers have to be essentially mentors, there can never be an isolated role for a mentor who is not a teacher.
- Cognitive apprenticeship is required and the lack of it creates a huge vacuum in the field of education, both school education and teacher education. Cascading academic dearth is one of the major issues in the process of mentoring.
- Heterogeneity of groups also creates a gap in mentorship as mentoring to a diverse group with the essence required, is difficult.

But one of the major questions that he raises is that, whether space can be provided in terms of time, to mentor. This is the area to seriously think about and work towards achieving the vision of NEP 2020.

Dr. Kashyapi Awasthi, Assistant Professor NIEPA in her presentation entitled “The School Leaders as Mentors: Exploring the possibilities” described mentorship as a more experienced individual partners with a less experienced individual, and through regular interactions share knowledge, skill and experiences and learning takes place in a friendly encouraging environment.

Learners learn best when:

- There is a conducive environment.
- When observation, introspection and reflection all the three things occur sequentially.
- There is sharing of skill and experience merged with content knowledge.
- Facilitate sharing in the formation of a learning organization

Thus overall, it is important to stress that the factors should come together, for personal and professional growth.

How to mentor? Mentoring on the part of the mentor requires, a high level of emotional quotient and intelligence. Developing mutual trustful relationships is required to foster a learning environment. Respecting cultural diversity is another aspect of creating life-long learners.

What should be the process of mentoring?

- Formal mentoring is a part of mentoring that includes classroom mentoring through, observation and feedback. Individual as well group mentoring has their own pros and cons. Mentors should plan having a learned conversation to be able to impart the required skills to their less experienced learners.
- Informal mentoring takes up a set up from the school canteen to the play grounds. It is a process, where one learns through the beautiful interaction that comes from a “no-where” conversation that brings out the emotional and social quotient among the trainee.

The speaker also discussed PLC in the role of mentoring. She further discussed the probable pitfalls and the lingua and cultural gaps, assessment and feedbacks often create the deficits. The relationship between, the management, principal and the teachers were also discussed. She talked of the lacunae in understanding and helping the less experienced in becoming empowered. The process is one of holistic learning and not of humiliation.
